PHOTOGRAPHY

Senior Pictures

A photo shoot where you get to be seen for who you are right now, in this specific year, before you become the next version. We'll talk about what you want to feel when you look at the photos you take. These are the things that are important to you right now, and we will build the session around that.

STARTING AT **\$400**

Cultural & Meaningful Events

Rites of passage, family gatherings, ceremonies, celebrations that carry weight. This is for the events that aren't just fun, they are the ones where something is being passed down, named, or honored. I will ask you what matters about this specific event so I know what I'm actually photographing and what means the most to you.

STARTING AT **\$800**

Concerts/Performances

I document artists, the audience, the venue, the lighting, the atmosphere throughout the set. I will deliver a selection of images from the show.

STARTING AT **\$800**

Businesses

I photograph you and your brand. Headshots, teams, workspace, product, the stuff that makes someone feel like they already want to be in the room with you.

STARTING AT **\$400**

Lineage Sessions

A session built around where you come from. Your family, your stories, your objects, your hands, your home. We will talk before the photo shoot about what you want to make visible, a grandmother's recipe, a piece of clothing, a place, a name. I will work with you figure out what to bring, how to arrange it, and how to be in the frame with it without it feeling like a museum exhibit.

*This is the one I'm most excited about.
This is the one that started everything.*

\$1500

Intimate Weddings

For couples who want fewer people, more presence. Small ceremonies, real conversations, the kind of day where you can actually look at each other. I stay close and quiet, letting the day unfold at its own pace so the photos come out the way the day actually felt, not staged, not rehearsed, just true.
